

**SACRED HEART CONVENT INTERNATIONAL SCHOOL
SARABHA NAGAR, LUDHIANA**

Circular No.: 18/2026-27

Dated: 14.08.2026

Dear Parents/Guardians,

As we step into September, we also move closer to an important milestone - the **Progression Examinations**. At this stage, your support, encouragement and partnership play a vital role in helping our children approach their examinations with confidence and composure.

Think of your child as a **young tree**. A tree does not grow tall and strong overnight. It begins with a tiny seed, develops roots, withstands changing weather, and grows steadily with **time, nourishment, care and patience**. In much the same way, a child's academic journey is shaped by the small efforts made every single day.

“Success is the sum of small efforts, repeated day in and day out.”
— Robert Collier

The Progression Examinations are therefore not simply a measure of what our children remember. They are an opportunity to demonstrate **growth, discipline, perseverance and determination**. Just as strong roots help a tree withstand storms, consistent preparation gives our children the confidence to face challenges.

How Can We Help Our Children Grow?

1. Plant the Seed of Planning

Encourage your child to create a realistic study timetable. **Breaking the syllabus into smaller portions** makes preparation more manageable and less overwhelming.

2. Strengthen the Roots Through Regular Revision

Daily revision is more effective than last-minute cramming. Encourage children to **revisit concepts regularly** and practise what they have learnt.

3. Give Them Space to Grow

Provide a quiet, organised study environment and minimise distractions during study hours. Remember, a focused hour is more valuable than several distracted hours.

4. Help Them Weather the Storms

Difficult chapters, mistakes and low scores are not failures; they are opportunities to learn. Encourage your child to identify areas of difficulty and work on them patiently.

5. Nourish the Mind and Body

Adequate sleep, nutritious meals, hydration, physical activity and short breaks are essential for effective learning. A healthy mind learns better.

Dear Students,

Remember, **you are still growing**. You may not know everything today, and that is perfectly alright. Every page you revise, every question you attempt and every mistake you correct adds another ring to your tree of learning.

To learn with greater precision, try these techniques, suited across age groups:

Younger students: Build a "**memory palace**" by anchoring facts to rooms at home; turn stubborn lists into rhymes or songs.

Middle grades: Teach a concept aloud to a sibling - every fumble reveals a gap worth closing.

Senior students: Follow **S.W.A.T.H.** - Survey, write from memory, apply through practice, Time-box effort, Halt to reflect.

So, take one step at a time.

Plan it.

Prepare for it.

Practice it.

And most importantly, Believe in yourself.

LKG & UKG SEPTEMBER PROGRESSION TEST DATESHEET 2026

DATE & DAY	CLASS LKG	CLASS UKG
09.09.2026 (Wednesday)	Cognitive Aptitude & Values and Virtues	Cognitive Aptitude & Values and Virtues
10.09.2026 (Thursday)	Number Crunching - Vocal	Number Crunching - Vocal
